

## Overview

Chex Finer Foods is going live on a new online appointment scheduling system called Opendock! As of 2/17/25 your carriers will now be able to schedule inbound appointments for our warehouse and many others at <https://schedule.opendock.com/app/login>.

It's easy, you can schedule in less than 5 minutes by following these steps:

- Go to <https://schedule.opendock.com/register>
- Click "Register for FREE"
- Enter your name and e-mail and create a password

Click on the link below for tutorials on how to use the Opendock Scheduler:

## Benefits

One username and one password for thousands of warehouses. Eliminate the need to have usernames, passwords, and links for hundreds of different warehouse locations to schedule an appointment.

Visibility to all scheduled appointments across different companies and warehouse locations through a single view on the My Appointments page.

If you are a large carrier or brokerage booking hundreds or thousands of appointments per month with Opendock we also offer API integration. This would allow your company to integrate Opendock into their TMS and schedule appointments directly without ever needing to leave your TMS.
